

The Not So Short Introduction to Establishment Dashboard V2.0

**Office of the Deputy Director General
for Field Regulatory Operations**

Dashboard Developed by: Ryan Glen P.
Deguma
Version 1 Manual; 8 May 2020

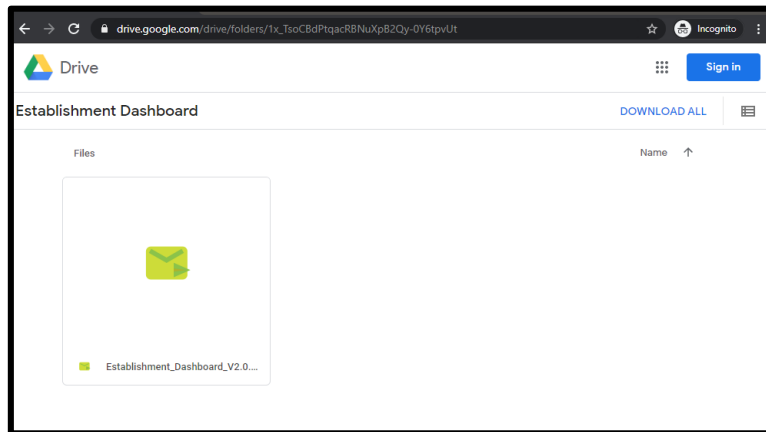

The **Establishment Dashboard** is data management tool created to provide an overview of licensed establishments in the Philippines. Through this tool, we are able to provide a comprehensive list of establishments in all regions and provinces currently being monitored by the FDA.

This manual is created for the users of the dashboard.

To be able to access the dashboard, the user must first download and run an executable file.

Step 1

Go to this link bit.ly/froo-dash and download the folder:
Establishment_Dashboard_V2.0.exe

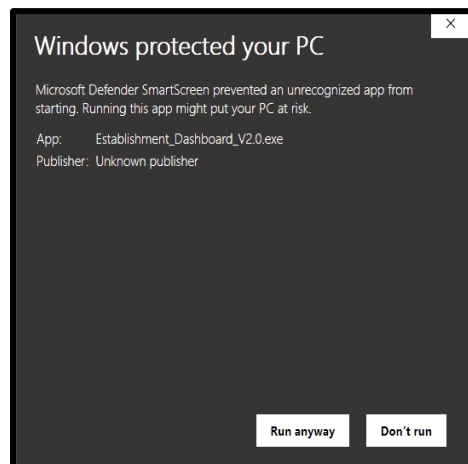

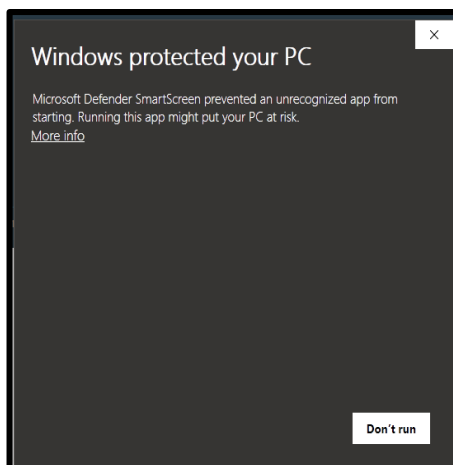

Step 2

Open the downloaded file.

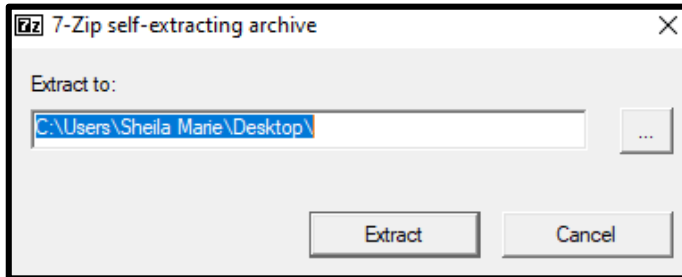

Step 3

If the “Windows protected your PC” prompt appears, click [More info](#) then [Run anyway](#).

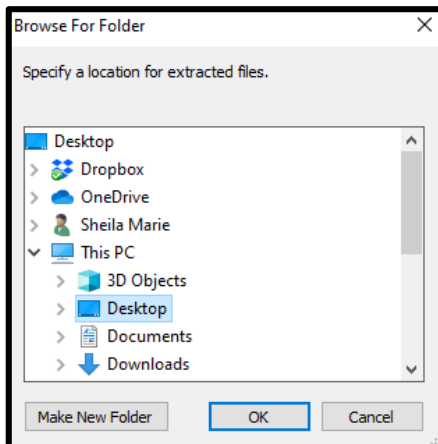

Step 4

The following box will appear.
Click the button **encircled in red**.

Step 5

Choose Desktop as a location of the extracted files.
Click **OK**.

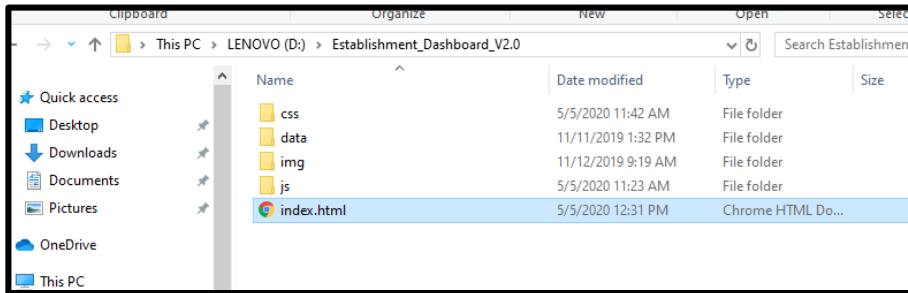

Step 6

Open the desktop folder.
Then open **Establishment_Dashboard_V2.0**

Step 7

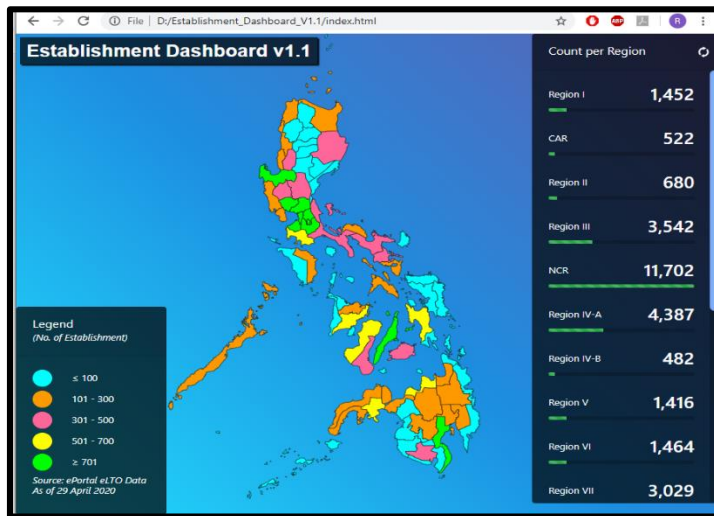

Inside the folder, open the index.html file.

Step 8

During the first run, the dashboard will download the latest e-Portal Data. This process will require an internet connection.

The following screen will appear once the download is completed:

Note: The dashboard will automatically refresh its data after 15 days. However, you may manually update its data by clicking the refresh button located at the top right corner of the dashboard.
